**October 8, 2022, 9:00am CST**

**Description:** Workshop participants will explore ways to responsibly serve LGBTQ+ clients in an ethical and culturally responsive manner. Beginning with basic education and terminology about LGBTQ+ issues, participants will accelerate learning to discuss historical issues in behavior analysis, the BACB ethics code, and risks impacting LGBTQ+ clients. This is a hands-on, interactive workshop that will use dialogue, collaboration among participants and sample ethical dilemmas to think critically about professional allyship. Participants will leave the workshop with tools and strategies to apply in their practice to create affirming environments.

We are proud to offer attendance ***free of charge for KansABA members***, or for \$25 for nonmembers. Three Type 2 CEUs will be available for purchase for \$30 total for both members and nonmembers.
